**DEFENDANT'S DISCLOSURE OF EXPERT
WITNESS G. LEE CROSS, III, M.D.**

COMES NOW, Defendant, Crete Carrier Corporation, pursuant to Fed.R.Civ.P. 26(a)(2) and provides the Report of its Expert Witness, G. Lee Cross, III, M.D. as follows:

OPINION

I am of the opinion, to a reasonable degree of medical certainty:

1. That Nyamekey Allen sustained no cognizable injury, other than *potentially* some minor soreness that would resolve in just a few days, as a result of the June 4, 2016 motor vehicle accident which is the subject of the lawsuit.

2. That the medical treatment sought out and received by Nyamekey Allen following the June 4, 2016 motor vehicle accident was not the result of, or necessitated by, any injury caused by the June 4, 2016 motor vehicle accident.
3. That more specifically, the neck, back, shoulder, and hip symptoms and conditions for which Nyamekey Allen received treatment by Dr. Todd Sacks were not caused by or related to any injury caused by the June 4, 2016 motor vehicle accident.

METHODOLOGY AND BASIS FOR MY OPINION

The methodology and basis for my opinion concerning Mr. Allen are as follows:

- I performed a detailed review of medical records and documents from the following sources and providers:

Allstate Insurance Co., Traveler's Insurance Co., Country Financial Insurance Co., Siegel Insurance Co., Police Accident Report (6/4/16), photos of Mr. Allen's car, Michael Family Chiropractic, Atlanta Medical Institute, Resurgens Orthopedics, Northside Hospital, Wellstar Cobb Hospital and Plaintiff's Responses to Defendant Crete's Interrogatories.

- I used my 35 years of experience as a board certified orthopaedic surgeon evaluating and treating joint problems, including shoulder and hip problems;
- I used my 23 years of teaching residents the evaluation and treatment of joint problems, including medical records review, radiographic image review, and bedside examination of patients; and
- I used my 15 years of continuous records review for the purposes of rating Social Security disability applicants.

My method of evaluation of Mr. Allen's condition is scientifically sound and has been used and recognized by physicians for decades.

EXHIBITS TO BE USED

I may use the medical records of Mr. Allen, anatomical models or diagrams and radiographic images.
